

Flow Reactors

ActiveSite and Amar Equipment, combining 50 years of catalyst experience with 50 years of pressure vessel fabrication to offer best in class flow reactors.

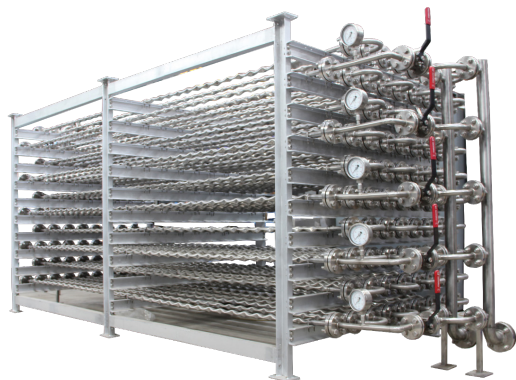

Packed Bed Reactors

10 - 100ml, 100 bar, 900+ °C
Up to 16 parallel beds
Automation & Manual Options
Applications: Reforming, HDS,
Hydrogenation, Amination

SlurryFLO™

250 ml- 50L, 100 bar, -30 - 250 °C
Flow rates up to 300 LPH
Automation & Manual Options
Applications: Slurry reactions,
continuous crystallization

PinchFLO™

50 ml- 1000L, 50 bar, -50 - 350 °C
Flow rates up to 10,000 LPH
Automation & Manual Options
Applications: Nitrations, Oxidations,
Organometallic chemistries.
